

MY JOURNEY

I was born in the vibrant city of Bangalore, often called the Silicon Valley of India, to Saints as well as visionary educators Mr SYED ABDUL KAREEM and Mrs MEHAR UN NISA {may ALLAH SWT be pleased with them}, whose dedication to knowledge shaped my earliest years. Inspired by their example, I pursued a Doctorate in Physics from The International University, USA, and devoted twenty-five years to teaching, research and authoring, exploring the profound intersections between Physics and Islam.

My life and work have been deeply enriched by my spouse, Mrs. SHAHWAR BANU, an internationally recognised educationist, award-winner and founder of the **SOLLAM** Charitable Trust and The J.H.S Educational Institutions in Bangalore. Together, we share a vision that transcends personal ambition, blending education, service and devotion.

A profound love and reverence for **MUHAMMAD PBUH** guided my journey into metaphysical research. This passion led to the creation of 'AMEEN CALENDAR', a solar calendar spanning from 01/01/0001 CE to Infinity and 01/01/0001 BCE to Time Immemorial. Building on this, developed the 'SHAHWAR CALENDAR', a lunisolar system from 01/01/0001 AH to Infinity and 01/01/0001 BH to Time Immemorial, through which we established

THE PRECISE BIRTHDATE OF MUHAMMAD PBUH AS

MONDAY 12 RABI I 53 BH / 22 APRIL 571 CE

Through years of study, I discovered that the Noor or Divine Radiance of **MUHAMMAD PBUH** surrounds the universe as well as Noor of **ALLAH SWT** encircles the Radiance of **MUHAMMAD PBUH** and named it as "**DIVINE SPHERE**". This insight led to the derivation of a unique formula for the speed of Noor or light using the Arabic Numerological number of **MUHAMMAD PBUH**, the proposal of 'Big Interaction Theory' as an alternative to the Big Bang and a revision of Einstein's energy equation to $E = mr^2$.

Nineteen years of meticulous research allowed me to trace the precise dates from the Creation of Noor of **MUHAMMAD PBUH** to the End of Creation. My findings reveal remarkable synchrony: in both lunar and solar calendars, the day, date and month of **MUHAMMAD'S [PBUH]** birth align with the Day, Date and Month of Creation, while the date and month of Doomsday coincides with the date and month of End of Creation.

Further comparative studies demonstrate that the year of birth of supernatural beings corresponds to the Arabic Numerological number of **MUHAMMAD PBUH** and that Mahdi A.S, Kalki and Maitreya will appear on the same date. After years of careful observation, reflection and calculation, I arrived at something that profoundly reshaped my understanding of life, divine order and death - 'The Universal Death Formula. In fact, my research is more than mathematics; it is a testament, a silent affirmation that,

ALLAH SWT CREATED THIS CREATION FOR MUHAMMAD PBUH

Ultimately, I have established that, after Salvation from **MUHAMMAD PBUH**, the duration of existence in heaven spans thirty-six crore years - in shaa **ALLAH**
